My strengths are my pragmatic and direct approach, my ability to tune in to client's experience and challenges, and using my understanding to design creative and effective solutions in a collaborative way. Clients report that my style is accessible, no nonsense and fun - and that our work together makes a big difference to them and their organisations. They tend to ask me back, and our work together often lasts over several years.

I first encountered Positive Power & Influence as a participant back in 1994! It had a tremendous impact on me both professionally and personally. Soon after I became a Consultant, and trained to deliver the programme. Since then I have run over 150 programmes both for open groups and in-house as either stand-alone development or as part of a modular Leadership programme.

My clients currently include - Vodafone; a Leading Global Aviation Leasing business; Zurich Insurance; Pepper Asset Servicing; The Royal College of Physicians Ireland; The Wheel - The National representative body for the not-for-profit sector in Ireland. In the last few years clients also included Lloyds Banking Group (UK); RBS (UK); COPE Foundation Ireland; and Kraft (Mondelez) Europe.

I am fascinated by the challenge we all face in making our organisations sustainable and at the same time places where the human spirit can thrive.
